Green Infrastructure, Agroecological Practices and Biodiversity in Olive Orchards

23 - 26 November 2026

Heraklion, Crete, Greece

Welcome from the Organisers

We are pleased to announce the international conference, “**Green Infrastructure, Agroecological Practices and Biodiversity in Olive Orchards**”, which will take place from **23 - 26 November 2026** at the **Hellenic Mediterranean University** in Heraklion, Crete, Greece.

We look forward to welcoming you to Heraklion, and to an engaging and productive conference!

Its objective is to present findings, promote knowledge exchange and foster constructive dialogue on current challenges and future perspectives related to olive agroecology, biodiversity and related farming practices.

Sessions

- S1.** Mediterranean Agroecosystems
- S2.** Green Infrastructure and Ecological Connectivity
- S3.** Agroecological Practices Supporting Green Infrastructure and Biodiversity
- S4.** Biodiversity and Ecosystem Services in Olive Orchards
- S5.** Oleotourism and Gastronomy
- S6.** Policies for Green Infrastructure and High Nature Value Olive Orchards
